Tuesday's Louisville Courier observes in regard to Monday's Provision Market:

There was but a small demand for mass Pork, with but small transactions at yesterday's quotations. There was a better demand for Bacon to-day, and there was an increased for mean for Bacon to-day, and there was an increased formees manifested on the part of holders. This is caused by the advices from the South stating that the stock there is very light, and planters are cortering more freely. In addition to this, the stock here and elsewhere is light, and holders are not analous to sail to any extent, accept to fill their Southern orders. The sales to-day were moderate at 195c. for Shoulders, 119 to first to fill their Southern orders. Including the Dry-goods table published in yesterday's Paxas, the Imports are \$3,569,418, against \$4,976,747 of the same week in 1859.

Shos and Leather Reporter says of last week's market:

There is no movement of consequence. The usual quantity of orders have been received, and trade is confined to these and to the demand from the New England States and British Provinces. The laquiny for line work, of Lynn mannafacture, has been very good, and fair rates have been obtained. Other towns which make a courser kind of women's and misses work, have not been generally as successful. There is no inducement to make up, except or orders as the trade are supplied and will not require a great quantity of goods for the remainder of this year. The movement in Stock secuis checked to some extent, probably because the manufacturers see nothing to encourage them to purchase.

Window Opposed to Vieture.—Wisdom, in spite of her dignity and lofty pretensions, has not always had a clean house to live in. She dwelt with Solomon, who was a voluntuary; with Seneca, who was a miser, with Diogenes, who was a sloven, with Bacon, who was corrupt; with Julian, who was a traitor. In fact, if she were to be judged by the Spanish preverb, and her character be estimated by the company she kept, she is "no better than she should be," and has no reason to treat Folly herself as a weaker sister.
